

~~CONFIDENTIAL~~LCOLF 4-2
12 June 1959

Chief, Liaison and Collection Division, OCR
ATTN : Chief, Collection Branch
Chief, Map Library Division, OCR

Conference Exploitation

1. Attachment 1 is a list of meetings that should be added to the Conference Target List. These conferences are either being sponsored by Bloc organizations or are meetings at which some Bloc attendance is anticipated. These Conferences all have high priority for this Division. We would appreciate any available information.
2. Attachment 2 is a list of categories of conferences that are held in Hungary and Czechoslovakia for which exploitation by the Library of Congress is requested. Some of the professional journals in which information about these meetings is found are noted. Other source material is probably available at LC. We would wish as much advance notice of such conferences as possible with as much pre-conference information as can be developed. A decision to place certain of these meetings on the Target List will be made as soon as adequate advance information is developed.
3. Additional information of this type will be passed to your office periodically with requests for action. Plans for exploitation of the conferences, in cases where U.S. Government officials plan attendance, will be worked out with OCR as usual.
4. Your assistance in providing the above information and in working our proper exploitation of the conferences will be appreciated.

~~CONFIDENTIAL~~

Attachment 2

1. National and international meetings of the following professions in Czechoslovakia and Hungary:

A. Meetings of the following professional groups are of interest:

- (1) Cartographers
- (2) Geographers
- (3) Photogrammetrists
- (4) Geodesists
- (5) Topographers
- (6) Surveyors

Note: Activities of some of the above overlap; however, the meetings could be called in the name of any of the cited groups.

2. Conferences and organizational meetings are usually noted in the various professional publications. The following periodicals are some of those that should be exploited for the required information:

Czechoslovakia

1. Geodetický a Kartografický Obzor (Geodetic and Cartographic Review).
2. Kartografický Přehled (Cartographic Summary).
3. Geodetický a Kartografický Sborník (Journal of Geodesy and Cartography).
4. Zeměměřický Sborník (Journal of Surveying).
5. Sborník Československé Společnosti Zeměpisné (Journal of the Czechoslovak Geographical Society).
6. Geografický Časopis (Geographical Journal Slovak).
7. Žida a Země (Land and People).

Hungary

1. Geodesia és Kartográfia (Geodesy and Cartography).
2. Földrajzi Közlemények (Geographical Review).
3. Földrajzi Értesítő (Geographical Bulletin).
4. Acta Geographica (Geographical Papers) by Szeged University.
5. Földtani Közlemények (Bulletin of the Hungarian Geological Society).
